Last Updated: 1/30/2020

Overview

To log into Portal from an external network, WFBMC now requires two-factor authentication, which is something you know (username & password) and something you have (a one-time generated number code from your smartphone). Here are the steps in the process:

Step 1: Enroll in RSA SecurID Access on your smartphone.

This step in the process uses both your smartphone and a regular computer with internet access. It can be at home or at WFBMC. The computer used does not matter; this is just for enrollment. Click the correct link depending on your smartphone type. **Note: this is *not* the device through which you will connect to the network.**

Step 2: Log in with 2-factor authentication.

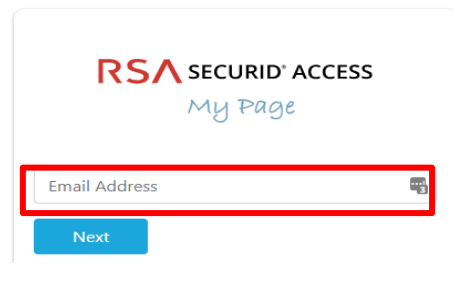

Use both the one-time code and login instructions to log into the network successfully.

Step 1: Enroll in RSA Secure ID

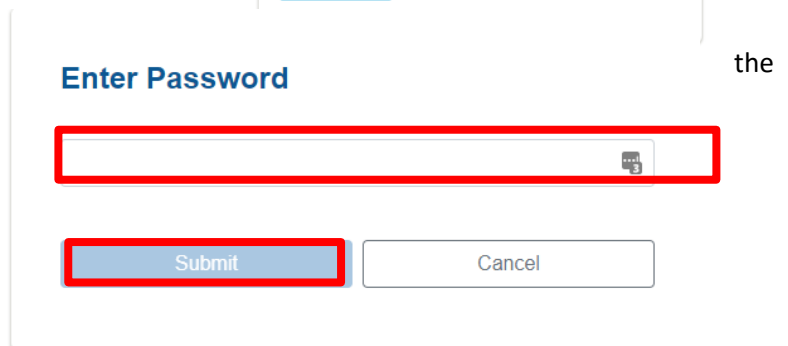

Installation and Enrollment for iOS or Android

Note: It may be helpful to [watch a short video](#) that shows this process to obtain your token.

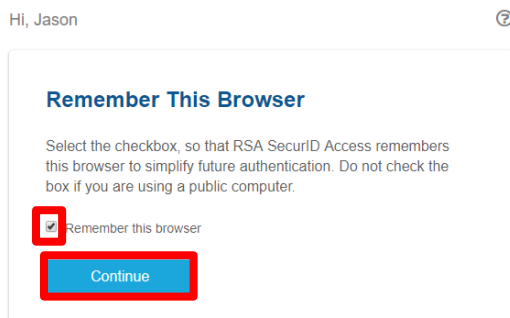

1. From your computer navigate to the site <https://wakehealth.auth.securid.com/mypage>.
2. Enter your Email address into the Email Field and click **Next**.

The image shows a web form titled "RSA SECURID ACCESS My Page". It features a text input field labeled "Email Address" which is highlighted with a red rectangle. Below the field is a blue button labeled "Next".

3. Enter your WFBMC network password into password field and select **Submit**.

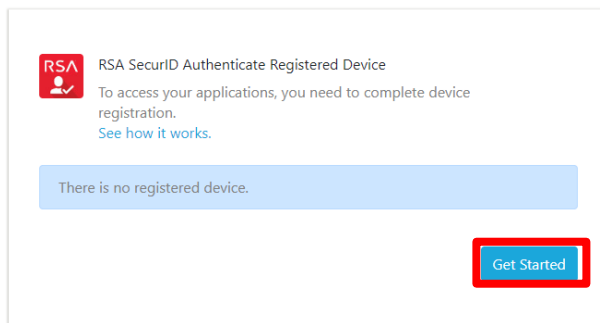

The image shows a web form titled "Enter Password". It features a password input field highlighted with a red rectangle. Below the field are two buttons: a blue "Submit" button and a white "Cancel" button, both highlighted with red rectangles. The word "the" is visible to the right of the form.

4. Click the Checkbox to remember browser and then click continue.

The image shows a web form titled "Remember This Browser". It includes a message: "Select the checkbox, so that RSA SecurID Access remembers this browser to simplify future authentication. Do not check the box if you are using a public computer." Below this is a checkbox labeled "Remember this browser" which is checked and highlighted with a red rectangle. At the bottom is a blue "Continue" button, also highlighted with a red rectangle. Above the form, the text "Hi, Jason" and a help icon are visible.

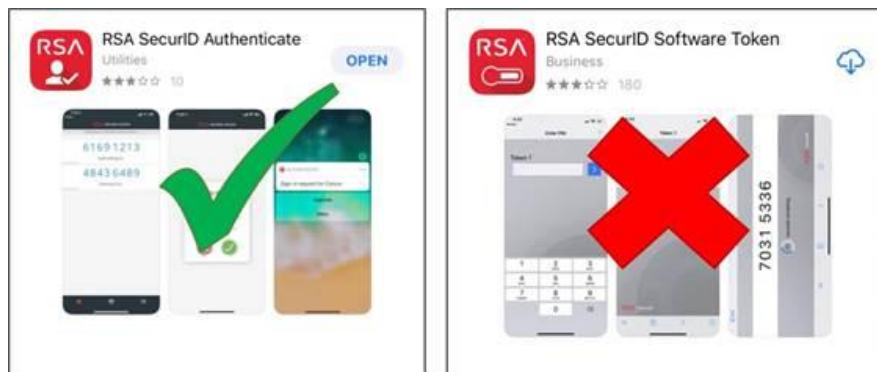

5. Click on the Get Started Button to begin your device registration.

Welcome, Jason

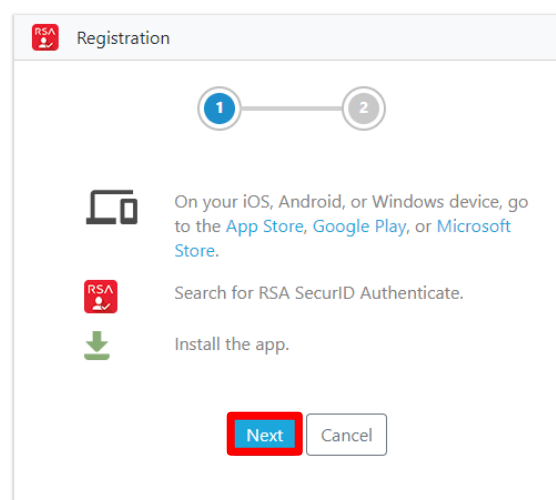

6. **On your Mobile device:** Go to the Appstore, Google Play Store or Microsoft Store to install the RSA SecurID Authenticate App.

Note: There are multiple RSA applications, be sure to download the correct app.

7. **On your PC:** After you have installed the Application on your mobile device select Next

8. Open the Authenticate App on your mobile device and tap Scan QR code. Point your camera at the screen to import the token and register your device. **Note: If you get prompted to allow access to the camera you will need to permit access to import the token.**

 Registration

Step 2: Accessing Portal

Once you have completed the enrollment of your personal smartphone, your next step is to access <https://portal2.wakehealth.edu> on your PC

1. Ensure the server "<https://portal2.wakehealth.edu>" is entered into the web browser and press enter.
 - a. Enter your WFBMC Login ID
 - b. Enter your WFUBMC Network password
 - c. Click Logon

The screenshot shows a web browser window with the address bar displaying "portal2.wakehealth.edu/my.policy". The page header features the Wake Forest Baptist Medical Center logo. Below the header, the text "portal2.wakehealth.edu Logon" is visible. The login form consists of three fields: "Username", "Password", and "Logon". Each field is highlighted with a red rectangular box. The "Logon" field is a button.

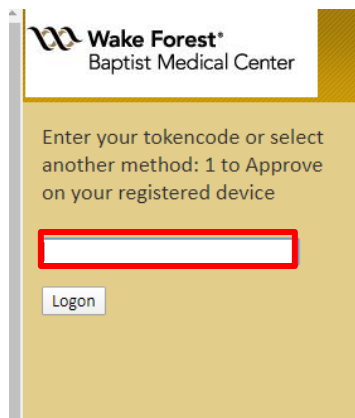

2-Factor Options

2. After your network authentication is passed you will be challenged for your second factor. Depending on your enrollment you may have multiple options.

****NOTE:** These options will change based on the initial selections that you make. You will need to read the prompts to select the correct option. The option you choose on your first login option for subsequent logins.

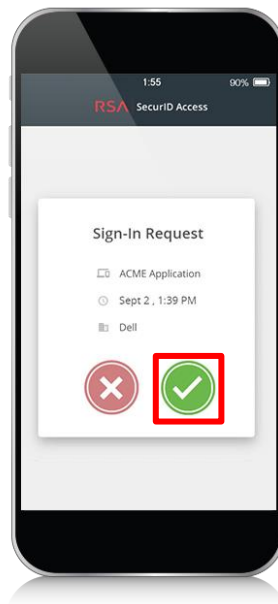

Approve Option

- **Approve Option:** Enter 1 into answer field and select continue.

The screenshot shows the 2-factor authentication page. The header displays the Wake Forest Baptist Medical Center logo. The main content area contains the text: "Enter your tokencode or select another method: 1 to Approve on your registered device". Below this text is a text input field, which is highlighted with a red rectangular box. At the bottom of the form is a "Logon" button.

If you have registered your device and imported a SecurID Authenticate token you will be sent a push notification By clicking on the Green check mark you will be approved to login to Portal.

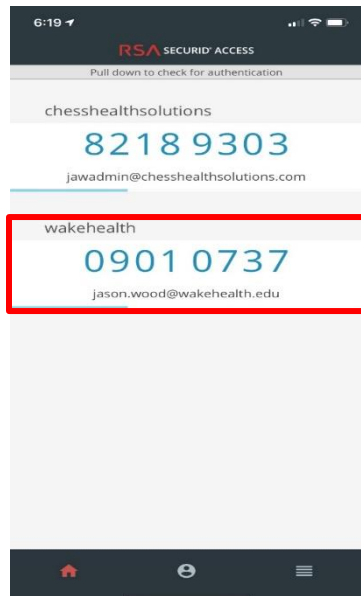

Token Code Option

- **TokenCode Option:** Enter Token Code into the answer field and click Continue
- Open the RSA Authenticate App on your mobile device.

- Locate the Token for Wakehealth if you have more than one token

- Enter the 8 digit tokencode into the Answer field and select logon
